# Performatives Storytelling

A person in silhouette is climbing a structure made of stacked papers. The papers are arranged in a way that forms a sort of staircase or a path. The background is dark blue. The person is in the center, reaching up towards the top of the structure. The papers are stacked in a way that they look like a solid block, but with some gaps and a rough, uneven top surface. The person's shadow is cast on the papers they are climbing.
